VICE-CHANCELLOR**

Dear Student Friends,
Warm Greetings,

I am delighted to know that you are interested in pursuing post-graduate studies leading to the degree of Doctor of Philosophy with specialization in one of the disciplines from Veterinary / Animal Sciences. The Veterinary Science indeed is a socially relevant and rewarding profession. The livestock, dairy, goatery and poultry sectors have witnessed a rapid growth in past few decades and are contributing significantly to the GDP of the country derived from agriculture. These sectors, allied to agriculture, are expected to receive further focus in the context of need to supplement and double the farmer's income as per the mandate given by our Prime Minister.

The Veterinary and Animal Science sectors are the pillars contributing to the technology led growth in achieving the nutritional security of the nation. There are many private players taking up Veterinary and Animal Husbandry as an entrepreneurship today, particularly in areas of modern farming, biotechnology, genetic engineering, nanotechnology, vaccines, diagnostics, feed and value added animal products, thereby opening up new avenues for veterinary professionals. Companion animal (dogs, cats etc.) practice in cosmopolitan cities, establishment of dairy and poultry industries, milk and meat processing centers, establishment of livestock business and marketing etc. are gaining momentum as preferred professions. Even the demand for veterinarians required in the fields of research, teaching and extension, in both developed and developing countries is on a rise. Besides this, the veterinarians also have opportunities for getting placements in the defence and paramilitary services and play a very important role in diagnosis, treatment and conservation of variety of wild animals.

There is tremendous opportunity in fresh water aquaculture as per the Blue Revolution policy of Union & State governments. Whatever area or career you choose, you must develop a passion for the profession in order to achieve success. I am sure that at the end of the academic career you will be all groomed to take up this profession to greater heights with your zeal and enthusiasm.

Wish you a very bright and successful career.

(Dr. Niteen. V. Patil)
